The undersigned Customer hereby makes application for water and or sewer service to be furnished by Lakeshore Utility Company (Hereafter Lakeshore), 106 E. Corsicana St., Athens, TX 75751, and approved by the proper regulatory authority, as bills are rendered therefore until written notice is given by the Customer to Lakeshore.

The Customer hereby agrees to be held responsible for the payment of all bills rendered for water and or sewer service at the premises until written notice is given to Lakeshore for the cancellation of this contract. The Customer expressly agrees that in the event default is made in the payment of any bill for water and or sewer service, the service may be discontinued after proper notice is given by Lakeshore. The Customer further agrees that Lakeshore may inspect the installed water facilities to insure that no substandard materials are used and to prevent any possible cross connection or undesirable plumbing practices. This Application and Agreement is to become a contract only upon acceptance of the same by Lakeshore.

The Customer agrees to install and maintain all customer premises equipment (CPE), service line and appurtenances thereto, in accordance with the national Plumbing Code and other laws and regulations prescribed by the governing regulatory agencies. Title to the water meter and connections furnished by Lakeshore, remain in the name of Lakeshore.

Lakeshore is responsible for protecting the drinking water supply from contamination or pollution which could result from improper practices. This service agreement serves as notice to each customer of the restrictions which are in place to provide this protection. Lakeshore shall enforce these restrictions to ensure the public health and welfare.

RESTRICTIONS - The following undesirable practices are prohibited by state regulations:

- a. No direct connection between the public drinking water supply and a potential source of contamination is permitted. Potential sources of contamination shall be isolated from the public water system by an air-gap or an appropriate backflow prevention assembly in accordance with state regulations.
- b. No cross-connection between the public drinking water supply and a private water system is permitted. These potential threats to the public drinking water supply shall be eliminated at the service connection by the proper installation of an air-gap or a reduced pressure-zone backflow prevention assembly and a service agreement must exist for annual inspection and testing by a certified backflow prevention device tester.
- c. No connection which allows condensing, cooling, or industrial process water to be returned to the public drinking water supply is permitted.

d. No pipe or pipe fitting which contains more than 8.0 % lead may be used for the installation or repair of plumbing on or after July 1, 1988, at any connection which provides water for human consumption.

e. Plumbing installed on or after January 4, 2014 bears the expected labeling indicating $\leq 0.25\%$ lead content. If not properly labeled, please provide written comment.

f. No solder or flux which contains more than 0.2 % lead may be used for the installation or repair plumbing on or after July 1, 1988, at any connection which provides water for human consumption.

Lakeshore shall maintain a copy of this agreement as long as the Customer and/or premises are connected to the public water system.

RIGHT OF ACCESS - The Customer shall allow their property to be inspected for possible cross-connections, potential contamination hazards, and illegal lead materials. These inspections shall be conducted by Lakeshore or its designated agent prior to initiating service and periodically thereafter. The inspections shall be conducted during the Lakeshore’s normal business hours. Lakeshore shall notify the Customer in writing of any cross-connections or other undesirable practices which have been identified during the initial or subsequent inspection. The Customer shall immediately correct any undesirable practice on their premises. The Customer shall, at their expense, properly install, test, and maintain any backflow prevention device required by Lakeshore. Copies of all testing and maintenance records shall be provided to Lakeshore as required.

ENFORCEMENT - Failure to comply with the terms of this service agreement shall cause Lakeshore to terminate service or properly install, test, and maintain an appropriate backflow prevention device at the service connection. Any expenses associated with the enforcement of this agreement shall be billed to the Customer.

By execution hereof, the Customer agrees that non-compliance with the terms of this agreement by said Customer shall constitute denial or discontinuance of service until such time as the violation is corrected to the satisfaction of Lakeshore. Any misrepresentation of the facts by the Customer on any of the pages of this agreement shall result in discontinuance of service pursuant to the terms and conditions of Lakeshore’s tariff.
